

# Nature's Noticeboard

## Autumn 2008

Allow some vegetables in your garden to go to seed. Collect, label and plant the seeds next year.

Try to find a home that an animal has built in your garden.

Start an autumn journal, filling it with notes, drawings, rubbings and photos.

Buy a reusable sandwich box for your lunch box and save on plastic wrapping.

Build a log pile in a corner of your garden to make an instant home for many insects.

Find a weed in your garden and see if you can identify it with the help of books or the internet.

Make a giant collage for your wall using dried tree leaves. Draw the trunk and branch of a tree and stick on leaves you have collected.

Pick one piece of fruit from your fruit bowl at home and try to discover how and where that fruit grows.

To help save energy, turn off lights when not being use. Set up a rota, putting someone in charge of keeping the lights switched off!

Sherkin Island Marine Station would like to thank PharmaChemical Ireland for their support in making this newsletter possible. We would like to thank those who have contributed to this newsletter especially Marketa Janouchova, John Joyce, Michael Ludwig, Robbie Murphy, Matt Murphy, Lorcán O'Toole, Jenna Poole, James Ring and Jez Wickens.
