

Boardgame

A Race to Reduce, Reuse and Recycle

This game is for two players. You will need a marker each and a dice. Decide beforehand who will be the rechargeable batteries and who will be the aluminium can.

Each of you throws the dice in turn, moving the required number of spaces. If you are the rechargeable batteries and you land on batteries then you move forward 3 spaces. However, if you land on an aluminium can you go back 2 spaces. If you are the aluminium can and you land on an aluminium can then you move forward 3 spaces. However, if you land on batteries you move back 2 spaces. If either of you lands on a rubbish bin, then you miss a turn. The first player to reach the "Reduce, Reuse & Recycle" logo wins!

USING RECHARGEABLE BATTERIES AND RECYCLING ALUMINIUM CANS PRODUCES LESS WASTE

Rechargeable batteries are capable of being reused nearly 500 times.

95% of the energy used to produce aluminium from raw material, is saved when a can is recycled.
